Emergency Battery Power Supply

TS60 Series

Manufactured by Mid-Continent Instrument Co., Inc.

TS60

The TS60 Series Emergency Battery Power Supply features advanced NanoPhosphate® lithium-ion cell chemistry that offers distinct advantages over older, nickel-cadmium designs. This includes significantly reduced maintenance costs, drastically improved life expectancy, low state-of-charge indication and an on-unit visual status indicator.

The battery power supply automatically provides a constant 6.6 VDC power for emergency lighting systems in the event of electrical system failure.
